

CORVUM (DUSK)

HWCS p12 

Ability Scores: Intelligence +2; Dexterity +1

Creature Type: Humanoid

Size: Medium

Speed: 30 feet

Age. Corvums reach adulthood at around 18 years. They live slightly shorter lives than other birdfolk, approximately 70 years.

Alignment. Shrewd and capable, corvums prefer moral flexibility and are more likely to be neutral than either good or evil. Nonetheless, corvums see the benefit of rules, even if many attempt to turn them to their own advantage. Because of this they favor lawful alignments.

Size. Corvums cut imposing figures, standing between 4 and a half and 5 and a half feet tall, encompassing a variety of different builds. They weigh around 100 pounds. Your size is Medium.

Speed. Your base walking speed is 30 feet.

Glide. Using your feathered arms, you can slow your fall, and glide short distances. When falling you can use your reaction to spread your arms, stiffen your wing feathers, and slow your descent. While doing so, you continue to fall gently at a speed of 60 feet per round, taking no fall damage when you land. If you would fall at least 10 feet in this way, you may fly up to your movement speed in one direction you choose, although you cannot choose to move upwards, landing in the space you finish your movement. You cannot glide while carrying heavy weapons or wielding a shield (though you may drop any held items as part of your reaction to spread your arms). You cannot glide while wearing heavy armor, or if you are encumbered.

Talons. Your sharp claws aid you in unarmed combat and while climbing. Your damage for an unarmed strike is 1d4 piercing damage. Additionally, you have advantage on Strength (Athletics) checks made to climb any surface your talons could reasonably grip.

Learned. You gain proficiency in one of the following skills: Arcana, History, Nature, or Religion.

Appraising Eye. You have an almost supernatural ability to appraise objects. By spending an action examining any object, you can determine any magical properties the item has, how they might be used or activated, as well as a fair estimation of market price. Using this skill strains the eyes, and you must complete a long or short rest before you can use it again.

Languages. You can speak, read, and write Birdfolk. You can also understand Auran, though you cannot speak it naturally.

Skulker. You have advantage on Dexterity (Stealth) checks made in dim light or darkness.

Street Smarts. You gain proficiency in the Insight skill.

Astral Spark. Your psychic connection to the Astral Plane enables you to mystically access a spark of divine power, which you can channel through your weapons. When you hit a target with a simple or martial weapon, you can cause the target to take extra force damage equal to your proficiency bonus.

You can use this trait a number of times equal to your proficiency bonus, but you can use it no more than once per turn. You regain all expended uses when you finish a long rest.

Firearms Mastery. You have a mystical connection to firearms that traces back to the gods of the giff, who delighted in such weapons. You have proficiency with all firearms and ignore the loading property of any firearm. In addition, attacking at long range with a firearm doesn't impose disadvantage on your attack roll.

Hippo Build. You have advantage on Strength-based ability checks and Strength saving throws. In addition, you count as one size larger when determining your carrying capacity and the weight you can push, drag, or lift.

Languages. You can speak, read, and write Common and one other language that you and your DM agree is appropriate for your character.

TRAIT SELECTION

Selecting the traditional traits noted for your heritage is quick and easy, and creates a character who feels like a solid archetype within your chosen heritage. But you can swap any of those suggested traditional heritage traits for any of the traits provided, building your character around any eight traits. This can include taking the traditional traits presented for any other heritage, taking one of your traditional traits again to gain its secondary effect, or taking any of the many traits that aren't part of any heritage's default presentation.
